2+ players
Regular decks of cards
Candy or token (optional)

OBJECT OF THE GAME

The object of the game is to go out first.

HOW TO DEAL

The dealer will deal the entire deck, one at a time, face down. One player may have an extra card depending on how many players there are. All the cards are dealt and there is no stockpile for this game.

****Variation:** have the person who has less cards, add a candy/token to the middle to even things out.

HOW TO PLAY

Start with the person to the left of the dealer, each person must play a card if possible: they either start a row of a suit or they add on to a row. There will only be 4 piles with the 4 suits.

All cards played remain face up on the table, arranged in four rows of the four suits.

The first player may play any card (you do not have to start with A or 2). The sequence in the suit must be built up until all thirteen cards are played, and the sequence in the suit is continuous.

For example: J, Q, K, A, 2, etc. or 3,4,5,6,7,8...

The turn to play rotates to the left and if a person is unable to play in turn, they put one candy/token (whatever you want to use) in the pot (middle).

Play continues until one person goes out (plays his/her last card). S/he wins the candy/token in the middle.
